FULL-STACK WEB DEVELOPER

- 1 (301) 801-5470 • gilford.tristan@gmail.com • www.tristan.wiki • github.com/tristannica • linkedin.com/in/tristannica

PROJECTS

#SHOOK || yougotshook.com || github.com/sixgun-bridal/shook
SHOOK is a social betting app that turns life's everyday events into bettable moments and ensures secure and timely payment between parties. You can challenge friends on Twitter using #SHOOK and @shookbot will take care of the rest.

Go-Fly-a-Kite || goflyakite.surge.sh || github.com/tristannica/Hack-the-Planet_Team_diScreeps
A visually entertaining web application that displays wind speed and weather data from Google Maps input through an animated flying kite. *Winner Best Visuals at the Hack-the-Planet hackathon*

EDUCATION

2005 - 2010	**University of Maryland (Honors College)** *B.A. Economics (Statistics)*	2017 - 2017	**Galvanize Web Development Immersive** *Full-Stack Web Development*

EXPERIENCE

NewDay Financial, LLC || Fulton, MD
Capital Markets Analyst

Position reported directly to VP of Finance requiring high-level performance, adaptability, and competency with minimal direct supervision. In addition to secondary-specific responsibilities, the position scope involved direct oversight of certain critical processes native to other divisions including:
MBS Pool Allocation & Securitization, Trade Execution & Portfolio Hedging, Affinity Partnership Management, Product Rate-Pricing & Risk Analysis, Subservicing Oversight, Database Maintenance, Analysis, Modeling & Reporting.

OZTEK Manufacturing Ltd || Brisbane, QLD
Logistics Analyst

Provided logistical support to home office through the coordination of suppliers, shippers, and intermediate entities. Produced broad market analysis (AUD/USD) currency forecasting, commodity price trends, interest rate analysis) in order to highlight areas in supply chain with elevated risk.
